Toronto, February 15, 2016 – Armstrong Fluid Technology announced that Joachim Schulz has joined the company in the newly created role of Commercial Director, Global Building Business.

In his new position, Schulz becomes part of Armstrong’s senior leadership team and is responsible for accelerating global building sales growth, enhancing sales practices to deliver Armstrong’s innovative Design Envelope benefits to customers, and implementing service strategies worldwide.

Schulz has an extensive global background in pumps and engineered equipment, including senior sales and business development roles with Sulzer and KSB. He holds a mechanical engineering degree from the University of Applied Sciences in Aachen, Germany.

About Armstrong Fluid Technology

With over 1000 employees worldwide, operating seven manufacturing facilities on three continents, Armstrong Fluid Technology is known around the world as a forerunner and innovator in the design, engineering and manufacturing of intelligent fluid flow equipment. With its expertise in fluid dynamics, heat transfer, variable speed, and demand-based control, Armstrong Fluid Technology leads the fluid systems industry, including HVAC, plumbing, and fire safety in providing the most energy efficient and cost effective solutions to building professionals and owners around the globe.
