Toronto, June 04, 2020 - Building technology industries veteran Mike Fischer has joined <u>Armstrong Fluid Technology</u> as Commercial Director and Country Leader, USA.

In this role he will be responsible for all sales and sales support functions for the United States and will report directly to Joachim Schulz, Global Commercial Director, Building Business.

Fischer brings more than 30 years of experience working with industry-leading organizations focused on building technology. In his 29 years with Honeywell he held several executive management positions with the company's Building Technologies, Building Products and Life Safety divisions. Most recently, he served as Global HBS Service Sales Leader with Honeywell Building Solutions.

Fischer has an MBA from Texas Christian University, and a Bachelor of Science degree from Central Michigan University.

About Armstrong Fluid Technology

With over 1200 employees worldwide, operating seven manufacturing facilities on four continents, Armstrong Fluid Technology is known as an innovator in the design, engineering and manufacturing of intelligent fluid flow equipment, control solutions and digital technologies such as Design Envelope. With expertise in demand-based control, digitalization, fluid flow, and heat transfer, Armstrong Fluid Technology leads the fluid systems industry, including HVAC, plumbing, gas transmission and fire safety, providing the most energy-efficient and cost-effective solutions to building and facility professionals around the world.

Armstrong Fluid Technology is committed to sustainability. In 2019, Armstrong signed the Net Zero Carbon Buildings Commitment, a program launched by the World Green Building Council. As a signatory to the program, Armstrong has pledged to ensure that all its offices and manufacturing facilities will operate at net-zero carbon by the year 2030.
